

# MAKE YOUR *mark*

## Junior Game Tester (Level 0)

### MISSIONS

Ubisoft is a leading developer and publisher of video games worldwide whose brand portfolio covers blockbusters such as Assassin's Creed, Prince of Persia and Splinter Cell, as well as games for the whole family, from Imagine and Petz to Rayman Raving Rabbids. To continue building on its achievements for the future, Ubisoft is looking for new talent for its growing Indian studio in India

We favor diversity, creativity, drive and team spirit. If you've got the skills and the desire to succeed, we want you to be a part of this exciting period of growth.

### JOB RESPONSIBILITIES

#### Job Summary:

We are looking for a QA Tester to assess video games quality through manual and partial automated testing. You will be responsible for finding and reporting bugs and glitches.

In this role, you should have a keen eye for detail and excellent communication skills. If you are also competent in executing test cases and are passionate about video games in general, we'd like to meet you. Ultimately, you will ensure that our games, features and systems work correctly.

As a part of Ubisoft QC Department, you will be involved in a complex process of quality control and serving the following mandates -

- Reviewing assigned parts of the game to analyze and exhaust all bugs
- Report encountered bugs in the bug database in accordance with all requirements and pre-defined standards
- Keep a track of issues reported by yourself and update according to any changes
- Send personal status report at end of day to the team lead
- Work with QE and Automation teams in collecting and better defining the QC requirements
- Understand, anticipate and support the changes in QC process with automation solution in place
- Learn and train in usage of scripts and automation solutions
- Expertise in setting up prerequisites, environment configuration, troubleshooting to best utilize the automation solution
- Help in development and maintenance of the automation scripts and solutions
- Integrate the output of automated test execution into the regular bug submission and reporting frameworks
- Communicate and help define the effectiveness of automation approach on the project
- Participate in KPI reviews to better understand the impact and suggest improvements to the automation process

# JOB REQUIREMENT

- Very good written and spoken English
- Basic knowledge in the area of gaming platforms
- Passion for Video Games (Decent knowledge about game genres and gaming experiences)
- Ability to work as part of a team
- Analytical mind and good problem solving aptitude
- Creative, Inquisitive and Curious

## **Preferred skills:**

- Familiar with bug lifecycle
- Understanding of roles and responsibilities of a game tester

**\*\*Note\*\*:** Final Designation / Level will be decided based on the relevant experience and interview ratings

We at Ubisoft, provide the best possible resources and environment that stimulates growth in a fast paced and ever evolving industry. Some of the perks that would indulge you –

- Access to all Ubisoft Games without cost
- A chance to work on international AAA projects in partnership across multiple studios
- Experience the latest and forthcoming game engines developed internally
- Access to cutting edge hardware
- Opportunity to travel overseas and collaborate with colleagues from other studios or to participate in QC events
- A free and hearty breakfast
- Indoor games like pool, table tennis, etc.
- Regular video game tournaments organized internally

And much more!
