## About IBM India Pvt Ltd:

IBM India Private Limited is the Indian subsidiary of IBM; it has facilities in Bengaluru, Ahmedabad, Delhi, Kolkata, Mumbai, Chennai, Pune, Gurgaon, Noida, Bhubaneshwar, Coimbatore, Visakhapatnam and Hyderabad. Between 2003 and 2007, IBM's head count in India has grown by almost 800%, from 9,000 in 2003[4] to nearly 74,000 in 2007.[5] Since 2006, IBM has been the multinational with the largest number of employees in India.[6] IBM is very secretive about the geographic distribution of its employees. By most estimates, it has close to a third of its 430,000 employees (1, 00,000) in India, and it likely has more employees there than in the US. IBM worldwide expects its revenues to be around \$120 billion by 2010, of which nearly \$86 billion (68%) would come from IBM Global Services alone, with an estimate of about 200,000 employees. IBM India would account for 90,000 of these. Roughly translated, IBM's Indian employees would generate \$35 billion of IBM's revenues in 2010. IBM Global Services (now split to Business Services & Technical Services) was called the "jewel in the IBM crown" by the Aberdeen group in 2003. For worldwide IBM, this is the group that contributes to more than half its global revenues (\$54 billion in 2005) presently and growing at a healthy rate (8% in 2005). With half of global service employees to be located in India, IBM India's importance for the global corporation can be easily fathomed.
