About Company: ELEATION Academy provides training in CAD/CAM/CAE with practical as well as theoretical concepts. We believe in inspiring students instead of training them which makes a considerable difference in learning process. Through our dedicated efforts in training we have successfully trained students and professionals working in different aspects of CAE industry.

The company is fastest growing training institute in India, and planning to start a service based company in November 2017, for that they need engineers to handle the Simulation projects.
