**TCS Open Source Hackathon - Decrypt the Real World!**

**Question 1) - Oooo....What is it?**

**Answer-** A platform to use open source technologies to solve real world challenges in

- 1) Swatch Bharat
- 2) Education
- 3) Environment & Health Safety themes

**Question 2) - Who can be in it?**

**Answer-** The contest is open to students from batches of 2017, 2018, and 2019 from all the relevant institutes in India. Students will need to register on TCS Campus Commune Portal for taking part in the contest. Each team should have 3 members.

**Question 3) - Till when can I register?**

**Answer-** Last date for team registration on Campus Commune is 23 Nov 2016. Select a theme and submit the details on features, novelty and how the application affects the stakeholders. Top 10 teams will be short-listed based on this round, across all zones, which will move to the Final Round.

**Question 4) - How does it help me and what do I win?**

**Answer-** Top 2 teams will be selected for the Winner Awards (Winner: INR 20K, Runner: INR. 10K)

All members of the winning teams at the Grand Finale will have an opportunity of an internship with the TCS Open Source Group and/or Environmental Sustainability, Health & Safety (ESHS) team. There would also be a special awards from Liferay including goodie bag and Kindles.
