

**Registration Link & Company Details || SHAKTI PUMPS || BE/B.Tech -
Mechanical/Electrical/EC/EEE/CS/IT, M.Tech & MBA - IB/FT/Marketing/HR**

We are happy to introduce Shakti Pumps (India) Limited as a leading public limited and multinational company in the Pump and Motor segment. We are a market leader in the Solar pumping segment and have more than 40 years of extensive industry exposure. We are having a domestic presence in PAN India and operating from 5 overseas offices in USA, UAE, Australia, Bangladesh and China and catering to more than 125 countries across the globe.

Shakti Pumps (India) Ltd. was established in 1982 at Pithampur in M.P. As an ISO 9001-2008 certified company, we today manufacture a wide variety of stainless steel based pumps for use in industries, agriculture, horticulture, commercial, domestic, etc. Our state-of-the-art plant is equipped with machines from Japan, Europe, etc. In this context, we invite you to take a virtual tour of our plant on our website www.shaktipumps.com

A Brief about company:

- 1) India's first company to receive the maximum number of 5 Star Rating for Pumps from the Bureau of Energy Efficiency
- 2) Listed on Bombay Stock Exchange, we are one of the few Indian pump companies to cater to International Markets
- 3) We are today answering the water needs of over 125 countries. The number is growing rapidly year after year
- 4) Shakti is among the few pioneers in the world to produce 100% stainless steel submersible pumps. Our main focus is to manufacture quality pumps which consume less energy, have a long life and are also easy to maintain. Which is why stringent quality tests are carried out in the plant before our pumps make way into the market
- 5) Shakti Pumps product portfolio comprises of new-age products which are solar energy-operated pumps, electric pumps and solutions that find use in agriculture, industrial & commercial sector. With 28 patent applications, of which one patent was recently granted, Shakti Pumps has emerged as a leading renewable energy solutions company with diversified product offerings including technologically advanced utility functions.
- 6) Buoyed by 40 years of proven prowess in manufacturing Electric Motors and 5 years of manufacturing Power Electronics Equipment (Controllers), the company recently announced its foray into the EV segment with the manufacture of Motors, Chargers, Controllers and Multi - Application Component Variable Frequency Drives (VFDs) for Electric Vehicles via the incorporation of a wholly owned subsidiary.
