Company:- V2Solutions (<http://www.v2solutions.com>) is a global technology services and solutions provider with footprints in application development, Salesforce, robotics process automation, AI and others. The organization is currently undergoing a transformation journey and reinventing itself to ensure readiness for future challenges. The organization is relooking to redefine its positioning and is working towards creation of the structure/functions to enable itself for growth. The team is currently around 600 strong individuals with customer base primarily in the US

Job Description:

Do you get excited imagining the future? Do you want to re-imagine the future for technology services in India? Do you feel joy in building the pillars of success for an organization? With the fast-paced changes happening in the technology arena, V2Solutions is at its inflection point for growth and is looking for professionals who can help in driving various initiatives to transform the organization.

If you are open to Researching, designing, implementing, and managing software, this is the place to be. If learning new technologies and the learning journey excites you, Client interaction, Team huddles, Project deliveries, gets you going, then we would like to have a conversation with you.

Skills Required:

- *- Strong analytical and critical thinking
- *- Strong communication and presentation skills
- *- Self-starter and go getter
- *- Familiarity with the software technology ecosystem
- *- Eagerness to explore new learning areas

Criteria: BE/B.Tech-CS, IT, EC and MCA -2021 Batch with 60% throughout i.e. in 10th, 12th, BE/B.Tech/ Graduation/MCA- 2021 Batch

Clauses of employment:

- Students would be hired as trainee(contract)
- Salesforce training will be imparted to the students for 4 months
- Training will be conducted basis international standards
- Stipend of Rs: 10,000/- would be provided during training duration.
- Post training (4 months) there would be an evaluation process and selected students will become Associate Software Engineers (permanent) and will be offered annual package of INR 3.15 LPA. The details of employment will be shared in the due course.
- If the assignment is not cleared it is considered as end of contract
- As the organization is investing in upscaling the students a 2 year Training agreement will be signed with the organization post completion of the training program
- Failing to which there will be a clause of 75k
- The base location will be Udaipur for a minimum of 1 year post that based on performance employees will be given WFH/location preference
