About the Company:

Founded in 1986 by IITians, Compro is headquartered in New Delhi, with marketing and customer support offices located in the United States and the United Kingdom.

Their clients are leading publishing & eLearning firms based in the United States, the United Kingdom, and Europe.

They work as product innovators & trusted engineering partners for all our clients and have a proven track record of delivering products and projects.

Job Description:

Primary responsibilities of the role include (but are not limited to) the following:
Assist with coding, analysis, design, documentation, etc. of new and existing software solutions.
Development of new software as required by the company.
Assist in building end-to-end solutions for our customers.
Perform other related duties as assigned.

The candidate should have:

Strong analytical skills with excellent problem-solving abilities.
Strong Data Structures & Algorithms.
Strong verbal and written communication skills.
Should be a self-starter and a good team player with a high sense of ownership.
The candidate must be willing to work against tough deadlines.
A positive attitude, while maintaining the highest level of professionalism, is also necessary to meet the expectations of our corporate culture.

Timing and other relevant details will be shared on your eLitmus portal.
