About Company - Tega is a global leader in designing and manufacturing of 'critical-to-operate' consumables for the mining, mineral processing and material handling industries. The company founded by Mr. Madan Mohan Mohanka in 1976 is a multinational corporation headquartered in Kolkata, India.

Our manufacturing hubs located across India, Australia, Chile and South Africa help us deliver on quality and trust. Since our inception in 1976, we have significantly expanded our product portfolio and industry footprint through constant focus on R&D, customer centricity and quality. Today, we are recognized as one of the largest producers of polymer-based mill liners in the world and a strong force to reckon with in the field of specialized wear protection, conveyor components, screens, trommels and hydrocyclones. True to our motto "Partnerships In Practice", the partnerships we have nurtured over the decades are key to our existence. We owe our success to our 700+ customers from 70+ countries, our employees, our investors and community leaders.

We empower the global mining, mineral processing and material handling industries with world-class consumables. Our 'critical-to-operate' products and associated services help to solve complex challenges for the industries we serve. Our offering covers applications across the following sectors: Chutes, Grinding Mill Liners, Screens and Trommels, Hydrocyclones, Wear Products, Conveyor Components. The Company endorses the highest standards of systems and processes.

The shares of the company are listed in National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) of India.

Our group companies include: HOSCH, LOSUGEN, Tega Industries Chile SPA, Tega Industries Africa Pty Ltd, Tega McNally Minerals Limited (TMML)
