

Filtra Consultants And Engineers 2026 Batch

Registration Link & Details Filtra Consultants And Engineers – B.Tech (Mechanical)-2026 Batch

Filtra Consultants And Engineers Limited was founded by experienced water-treatment engineers with over 25 years of industry expertise. The company is committed to transforming India's water-treatment ecosystem through reliable, affordable and energy-efficient solutions.

Filtra manufactures a wide range of high-quality components — including cartridges, membranes, pressure vessels, pumps, valves, instruments and accessories — serving OEMs, industrial users and small to medium enterprises across the country.

Our products are designed to be easy to install, simple to maintain, power-efficient and cost-effective, making them a preferred choice for organisations seeking dependable and economical water-treatment solutions.

In addition to components, Filtra also engineers customised water-treatment plants tailored to specific client requirements, combining manufacturing capability with strong design and technical expertise.

We take great pride in fostering strong relationships with numerous Original Equipment Manufacturers (OEMs) within the Indian and overseas market, exemplifying our commitment to enduring partnerships.

Filtra operates one of India's first 24x7 B2B e-commerce platforms dedicated to the water-treatment sector, enabling seamless access to components and spares for customers across regions. With a growing presence through our offices, distributors and partners in major cities, Filtra continues to expand its footprint as a trusted solutions provider in the industry.

Position: Customer Success Engineers

Careers at Filtra – Opportunities for Customer Success Engineers:

Filtra offers an excellent opportunity for fresh engineering graduates to begin their careers as Customer Success Engineers (CSEs). In this role, you will support customers with technical aspects, provide application guidance, and ensure smooth post-sales engagement. CSEs work closely with clients, internal engineering teams, and channel partners, giving them hands-on exposure to water-treatment components, system design, and real-world problem-solving.

For young engineers looking to build strong technical, communication, and customer-facing skills in a fast-growing industry, Filtra provides the ideal platform to learn, grow, and make an impact.

Job Location: Mumbai / Pune / Nagpur
