

Ajanta Pharma 2026 Batch

Campus Drive of Ajanta Pharma for B.Pharma- 2026 Batch

www.ajantapharma.com

About Company: Ajanta Pharma is a specialty pharmaceutical company providing quality medicines across 30+ countries in the world. We enjoy leadership positions in multiple molecules and therapeutic segments through 1st to Market products.

We employ 13,000+ people worldwide from over 30 nationalities. 550+Products.

We enjoy leadership positions in multiple molecules and therapeutic segments through 1st to market products. We clearly understand our customers' needs and use cutting-edge technology to present innovative solutions.

Ajanta Pharma operates 7 state-of-the-art manufacturing facilities in India.

Out of this, 6 facilities manufacture finished formulations and 1 manufactures Active Pharmaceutical Ingredients (APIs), primarily for captive consumption. Stringent authorities like the US FDA and WHO have approved our facilities at Paithan in Maharashtra and Dahej in Gujarat.

Today Ajanta holds a strong position in all the 4 major therapeutic segments of Cardiology, Dermatology, Ophthalmology and Pain Management with many of our brands enjoying leadership positions in respective sub-therapeutic segments. We have been growing faster than the industry in all these segments by accelerating access to healthcare solutions. Recently Ajanta also got into two new promising therapies of Nephrology and Gynaecology.

- At Ajanta Pharma we are proud to be among the top 25 companies in India with 25th rank in Sep 2025 as per IQVIA.
- Ajanta enjoys 2nd rank in Ophthalmology in India as per IQVIA Dec MAT 2025 ranking.
- Ajanta has a strong presence in Dermatology with 13th rank in India as per IQVIA Dec MAT 2025.
- We stand at 18th rank in Cardiology in India as per IQVIA MAT ranking for Dec 2025.
- For Pain Management segment, Ajanta ranks 27th in India as per IQVIA MAT ranking for Dec 2025.
- In Nephrology, we are providing innovative products for every stage of kidney disease covering pre-dialysis, dialysis, and transplant.
- In Gynaecology, Ajanta has introduced products like Amgest, Apcor, Caltuf, Dagiran, Fedate, Menoroz, Poliquin, and Spazio.
